

Mechanical Maintenance Technician

No day is ever the same in this central wellington role.

In this position, as Mechanical Maintenance Technician you will undertake a mix of preventive and corrective maintenance tasks.

High level areas of focus for the role include:

- Planned Preventive Maintenance work
- Service and Corrective Maintenance work
- Contract work
- Callout duties
- Administration and record keeping

As Mechanical Maintenance Technician, you may also undertake repair, upgrade and installation contracts for clients.

Exposure to commercial buildings and their associated building services will be a distinct advantage.
