

Plumber

Our client is a Mechanical and Building Services Contracting business focused on commercial, industrial and infrastructure construction. Their Wellington Office is looking for a competent Commercial Plumber to work on our construction sites in the Wellington area.

The successful candidate must have onsite experience and be able to work unsupervised. You will become part of a team and must be capable of following their health and safety and drug free policies and procedures.

Candidates should have the following skills and experience on commercial and industrial building sites:

- Time-saving and organisational skills that ensure work is completed in a timely manner maintaining program coordination and daily scheduling;
- Ability to follow construction and or shop drawings;
- A willingness to liaise with builders and other trades on site;
- An awareness of Company occupational health, safety and environmental policies in order to ensure they are met as a minimum requirement;
- Ability to recognise hazards and make risk assessments in accordance with Company policies;
- A positive and respectful attitude to maintain working relationships amongst clients, staff and management.

You will be required to hold a current Site Safe Passport. Training will be given to comply with the Company's Safe Operating Procedures (SOP's).
