Refrigeration HVAC Technician

Opportunity passes at least once a day, click here for more details.....

Progress within the world of commercial heating, ventilation, air conditioning and electrical services.

The position is a challenging one and involves servicing, maintenance and some installation work of various types of refrigeration plant/systems.

You must have:-

- Trade qualified / National Certificate;
- Electrical Service Technician licence 'A' & 'B';
- Strong diagnostics and faultfinding ;
- A passion for I&C (advantage);
- Well developed verbal and written communication skills;
- Customer Service / relationship building mindset;
- Computer literacy;
- A current Drivers Licence;
- A proven stable work history;
- The ability to work within a team environment and at times unsupervised;
- Experience on water cooled chillers within commercial buildings (this could be considered an advantage).

In return our client will offer you a competitive hourly rate, company vehicle, uniform etc as well as the stage for you to excel and use your initiative in an interesting and varied work environment.

To arrange a confidential interview, apply now. Interviews can be outside normal working hours.

If this role doesn't suit you, and your seeking a challenge, why not make contact with

us anyway.
